
Title: Book History

Author: CaramelJaguar

Im here to tell the
history of sosaria as long
as i have been here and
known it. Some before me
kept records and breif
summanrys of events, and
I wish to continue this.
We will start off with
the Fall of Stormhaven.
It is belived that the fall
was eventualy caused by
Morus McStravick and
Dark Desire breaking
apart. The two disagreed
on some things and the
guild slowly dissapated and
eventualy led to the
downfall of the
stormhaven empire. Finian
who later was made king
by morus, failed to bring
the dying kingdom back to
life and remains, but
not oft seen. Later
Catherine Lilith moon the
cousin of former ruler
Shantel lilith moon took
over the crown and wed
Robby as they both ruled
with Walter as General
the kingdoms fate is yet
undecided.

The regency

The regency was powerful
in its formaer days but
now corruption and decite
are all that are left.

With a Humanis member
as Regent the regency
was led to downfall even
more then past events
with the siege of
serpents hold with
Rufus's abilty to not
show up in months at a
time, but to write a book
trying to bide him some
time. Legerion the

corrupt one took over control of the regency yet it was not official, but with rufus out of the way he was the one in power. The regency had several old members try to rejoin such as clan moor, who were reaccepted in, and Humanis who believe in human only rule. At first humanis was not going to be able to join the regency, seeing as the vote was left to me to decide a tie vote, let Legerion of SOR, a non Loyalist guild, said I could not vote seeing as I arrived a few minutes late. However I ended up voting not to let them in, and legerion being quite good friends with all the humanis members was mad, and he said he could cast a vote for yes which leaves it in a tie. After that several members were outraged and saw the corruption that was taking place. At a private meeting at old greyskulls place, a young man gave a speech to inspire the regency to go back to its former glories. Several of the members did nothing and sat there. Finally a vote of no confidence was called in the regent but was only agreed to by The house of the Guantlet and The Trinsic Honor Guard. With a few comments exchanged the THG and the HOG decided to leave the regency and form another empire. The regency is still slowly decaying with only a few good people left. The regency is still declining at the hands of humanis and now is a pawn to them.

***Battles*.**

The first major battle of my time, at which I fought in was at the battle of Luna. The forces of the dark order, the drow, and orcs sought to capture the last city of light in malas. The battle began at the hour of 8 with the OPG,SKM,and OS defending it, with the dark order, drow, and orcs trying to take it. The first wave ended up in the light prevailing, with a few men left on each side. The next wave ended in the Dark order takeing the city forcing the light forces to the bagball field. During the next few hours the two sides clashed in minor skirmishes, back and forth with both sides taking the city. The skirimish's eventually ending, and the battle ended in a stalemate.

Trinsic

The battle of trinsic was started as Mave, the lord of the dark order was looking for a special artifact and was going to lay seige to the city of trinsic. The regency pledged troops and the following guilds were involved. The dark order, soul knights, house of the guantlet, honor guard, palidins of virtues, Guardians of virtues, and sanctus. The dark order on the first wave ended up in comming through the small bridge to the south of the vity in the first wave
